

MUSIC TO BENEFIT MUSIC

...Raising funds to support music education programs
in West Michigan public and private schools...

Dear Community Member,

As more and more budgets are cut in local schools, our music education programs are in danger of being silenced. Without support, thousands of children will soon miss out on what is a key component of not just a well-rounded education, but also a well-rounded life.

That's where we (and you) come in.

Music to Benefit Music is a nonprofit organization that raises funds for music programs in West Michigan's public and private schools. Held at The Pinnacle Center, all proceeds from our annual concert series and fund raising activities go directly toward after-school workshops, music education scholarships and instrument purchases for area schools. In fact, our goal this season is to raise at least \$100,000 for local programs.

As a corporate sponsor, you can play an important role in making this happen, while also enjoying a few benefits of your own.

First, because we are a nonprofit organization, every donation you make also represents a tax write-off for your company. Second, as a corporate sponsor, you can receive special recognition at events, on promotional materials and more. And last but not least, because all proceeds go directly to local schools and communities, you get the satisfaction of helping hundreds of kids, right in your own back yard.

While you can always visit us online at mtbm.org, we'd much rather speak to you in person. Please, feel free to contact Bill Worst at 616.481.8183 to learn more about Music To Benefit Music, and what you can do to help.

We can't wait to hear from you.
